Order Now

An image will be display in this section  
This is a sample menu

The following products need to be displayed:

- SMALL FAMILY
- MEDIUM FAMILY
- LARGE FAMILY

Each product has an image, description and price.  
See description & price in **Online Products document**.

The **order now page** displays all products randomly...

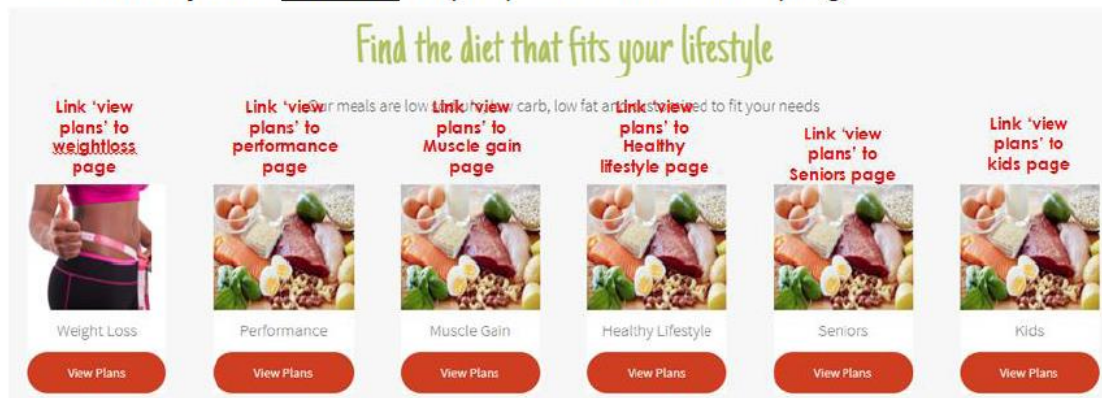

As requested, I'd like the order now page to **display the following information**.

### ORDER NOW PAGE

This page is **missing the banner section** (on top like all pages have).  
See Online Products document.

This page consists of **3 sections (centered block → image left, text right)**:

- **Variety Pack** (image, description & price) with button 'Order Now' → product is added to 'cart'.
- **Custom Meal Plan** (image & description) with button 'Order Now' → Custom Online Order process starts.
- **Meal plans section** displayed as on Home page:

From here, the client can select the items that suit their needs and follow the ordering process from the corresponding pages.

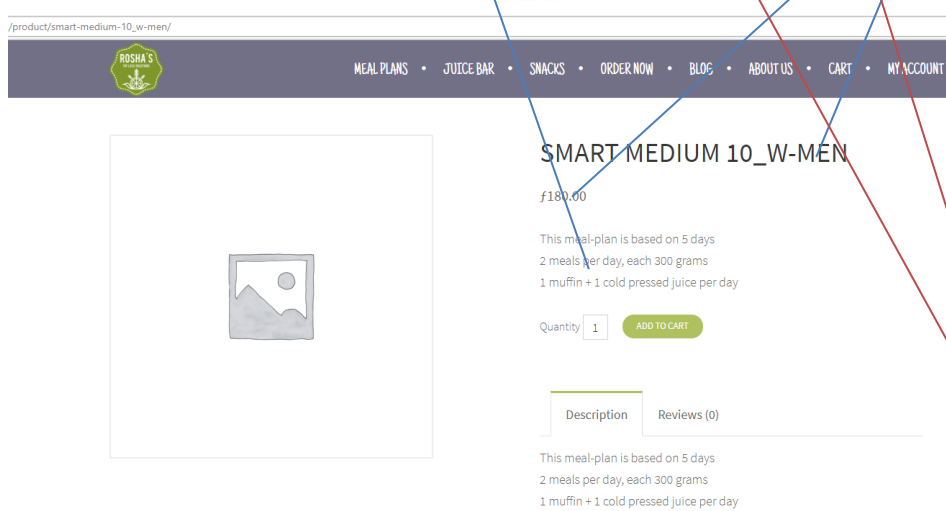

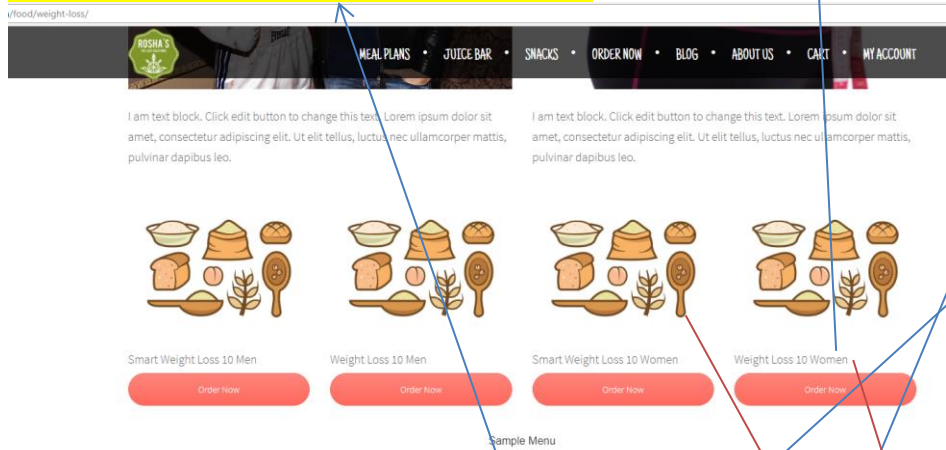

- **View all our products**

As for the current order now page –we can call this 'products' and put this as a 4<sup>th</sup> bullet as 'view all products' and then link this to the product page.

I reviewed the products that are linked under the meal plan pages.

I assuming that I can change the description, product name/price and other details, correct?

Please display images & tekst 'centered'
